

Lab Sheet 2

Implement in Matlab the following questions and plot using functions in matlab

Q1) Rotate a triangle placed at A(0,0), B(1,1) and C(5,2) by an angle 45 with respect to point P(-1,-1). Plot the points.

Q2) Rotate a triangle placed at A(0,0), B(1,1) and C(5,2) by an angle 45 with respect to origin. Plot the points.
